Go-Care at Abby Medical Opens Its Doors with eRAD PACS Installed

Greenville, South Carolina – March 6, 2009 eRAD, an industry leader in workflow solutions through its web-based PACS, RIS/PACS and Teleradiology products, announced today the installation of eRAD PACS in the new Go-Care at Abby Medical, an independent medical aid facility in Delaware. The PACS system was sold and installed by certified eRAD reseller Tristar MidAtlantic Imaging based in Norristown, Pennsylvania.

Go-Care is the first of its kind in the “First State” for a number of reasons: dedicated on-call list of Top Doc Specialists; direct access to doctor’s offices by scheduling appointments at check-out; can handle sports injuries, plastic surgery care and workman’s compensation cases with access to onsite specialists; register online from home minimizing wait time; and finally, they will be the only medical aid unit in the area with both Electronic Medical Record and Digital X-rays.

The doctors of Go-Care, Dr. Arlen Stone and Dr. Robert Winter will staff the facility during hours of operations. In addition, Dr. Michael Axe and Dr. Lynn Snyder-Mackler along with Dr. Stone and Dr. Winter are actively involved in many different community services and will strive to set the standard for community involvement.

Dr. Randeep Kahlon stated, “Going digital with eRAD PACS was absolutely the only way to go for increased efficiency and maintaining quality care. Keeping health care costs down made traditional X-ray obsolete. The eRAD web-based PACS enables offsite access to superior radiologists from American Radiology Services, and Top Doc specialists was critical to Go Care’s mission of providing the best medical care possible. Kahlon continued, “In addition, we also can send x-rays to our on call orthopaedic surgeon on his cell phone for an instant phone consult.”

About Go Care at Abby Medical - Go-Care at Abby Medical opened its doors November 10, 2008 with the goal of treating immediate medical concerns without an appointment and without a long wait in the emergency room. Unlike any other clinic, Go-Care provides access to many specialty services such as Orthopedics, Physical Therapy, MRI, Plastics, and Cardiology. Go Care at Abby Medical is committed to providing expert medical care in a time efficient, professional manner, all without needing a scheduled appointment. Go-Care treats a wide arrange of acute medical conditions and have diagnostic and rehabilitation services onsite to assist in diagnosing and treating medical conditions, and getting patients started on the road to recovery.
