C. Christopher Stroud, MD PC Orthopedic & Sports Medicine Expands Practice and adds eRAD's PACS

Greenville, South Carolina – August 20, 2010 eRAD, Inc. an industry leader in workflow solutions through its native web-based PACS, RIS/PACS and Teleradiology products, announced today that the practice of C. Christopher Stroud, MD PC of Macomb and Troy, Michigan is now live with an eRAD PACS. Patient studies are now digital and readily available anywhere in the enterprise including the operating room at neighboring William Beaumont Hospital. Michigan X-Ray, Inc. of Troy, Michigan was the provider of the system.

Dr. Stroud's practice recently expanded to a second facility accelerating the need for an enterprise solution for managing digital images. Mike Fent of Michigan X-RAY stated, "An eRAD solution was suggested for its ease of use, comprehensive diagnostic tools and Orthopedic friendly features." Fent continued, "The system was delivered and installed on schedule and the training provided by eRAD was excellent."

Dr. Christopher Stroud commented, "Our patient load has been increasing and we needed to expand and make our workflow more efficient at the same time. I especially like the accessibility and the learning hanging protocol feature."

About C. Christopher Stroud, MD PC

Serving the community since 2002, our primary goal is to provide comprehensive orthopedic care with an emphasis on individualized treatment. We specialize in knee, shoulder and foot and ankle with treatment expertise in trauma and fractures, arthritis, arthroscopic surgery, joint replacement and sports medicine. Following initial evaluation, further diagnostic testing and treatment options are discussed with the patient and together treatment and rehabilitation programs are developed that enable a return to pre-injury levels as soon as possible. For more information go to www.stroudmd.com.

About Michigan X-Ray
