**University of Oklahoma Goddard Health Center
Goes Filmless with eRAD PACS**

Greenville, South Carolina – October 24, 2009 eRAD, an industry leader in workflow solutions through its native Web-based RIS/PACS and Diagnostic Imaging Information Management Systems, announced today that University of Oklahoma Goddard Health Center, Norman Oklahoma, is now operational with eRAD PACS and digital imaging modalities.

Goddard Health Center's mission is to serve Students, Faculty, Staff and their dependents with a variety of medical services that ensure high-quality patient care in a convenient, personalized setting. Prompt interpretation of image studies by remotely situated radiologists and access to studies and reports via the Internet by primary care physicians located in other cities has been a key facet in Oklahoma University Goddard Health Center's patient-care master plan.

"With so many student patients under the care of out-of-town primary physicians, remote access to images conveniently and economically is a key benefit of eRAD PACS for this busy healthcare facility," said Phil Sharp, Manager at Merry X-Ray. Sharp continued, "This is Merry X-Ray's third installation of eRAD PACS at University of Oklahoma facilities and again, we are pleased to have installed, trained and implemented eRAD PACS at Oklahoma University's Goddard Health Center. We are happy to see web accessibility embraced by clinical staff and 'hometown doctors' immediately. The web-based access to images is used extensively by the Sports Medicine staff in the diagnosis and treatment of University of Oklahoma athletes."

About Oklahoma University Health Center

Established as the primary healthcare provider for students attending the University of Oklahoma campus, Goddard Health Center specializes in Sports Medicine for OU athletes, as well as providing a wide range of medical services to Students, Faculty, Staff and their dependents including Diagnostic X-Ray Imaging, Lab Testing, Pharmacy Services, Physical Therapy and Women's Healthcare.

About Merry X-Ray

MXR has been providing quality service for 50 years, and we plan to be around at least 50 more under the same CEO, Leo Zuckerman. As with all great companies, our most precious resource is our employees. Most of our approximate 800 team members have been in the X-Ray business their entire careers and many have spent the entire time as MXR employees. We also provide local representation to our corporate base. Today, you can work almost anywhere in the U.S. and choose Merry X-Ray Corporation as your "One Stop Shop" for X-Ray and Digital equipment." For more information visit www.merryxray.com
