NorthShore Health Centers Install eRAD PACS

Greenville, South Carolina – October 29, 2009 eRAD, an industry leader in workflow solutions through its web-based PACS, RIS/PACS and Teleradiology products, announced today the installation of eRAD PACS at NorthShore Health Centers, a community based health and education center based in Portage and Lake Station Indiana. Concurrent with the PACS implementation, NorthShore implemented the conversion of X-ray to Digital Radiography. RPS Imaging of Michigan City, Indiana was the provider of the Imix DR units as well as the eRAD PACS system.

According to Dave Price, President of RPS Imaging. “When Northshore first brought this project to us, eRAD PACS seemed like a natural fit for them. They had the typical concerns that many customers have, and we felt very confident that the eRAD solution would be able to address them all. Coupled with the Imix DR systems, I believe that they have achieved a truly first class, fully digital solution that will not only benefit Northshore, but also the community as a whole.”

About North Shore Health Centers

NorthShore Health Centers is a non-profit federally qualified community based health and education center established to meet the dental and health care needs of residents in Northern Porter County. North Shore provides access to quality, culturally sensitive health and dental care services regardless of ability to pay, in order to promote continuous comprehensive health care in Northwest Indiana. NSHC staff includes: Medical Director Dr. Kamaljeet Girm, Dr. Keith Ramsey, Dr. Leonard Ostrowski, Dr. Deborah McCullough, Dr. Ramachandra Rao, Dr. B. Pumputis, Dr. Gerard Roberts, Dr. Fernando Rivera, Dr. Kristen Allen. For more information visit www.northshorehealth.org.
