eRAD PACS to be Installed at Pinnacle Medical Group

Greenville, South Carolina – November 19, 2009 eRAD, an industry leader in workflow solutions through its native web-based RIS, PACS and Teleradiology software platform announced today the planned installation of eRAD PACS at Pinnacle Medical Group, a multi-specialty group practice located in Bradenton, Florida. Concurrent with the PACS implementation, Pinnacle Medical Group has also implemented conversion of their X-Ray unit to a new state-of-the-art digital system. Virtual Imaging of Deerfield Beach, Florida is the provider of the eRAD PACS system.

According to Janice Sorenson, Chief Operating Office, Pinnacle Medical Group, "Although still working through the installation/implementation phase, we felt both eRAD and Virtual Imaging would be good partners to achieve success in implementing a PACS system. Sorenson continued, "To date, we have not been disappointed and feel both our patients and the community will benefit from the advanced technologies we have introduced into our Medical Imaging Department."

About Pinnacle Medical Group

Formed in 1998, Pinnacle Medical Group is a multi-specialty group practice, developed by four local physician groups who merged together to expand the health care needs of our community. Pinnacle Medical Group is a compassionate healthcare team committed to the best in comprehensive quality medical care. For more information go to www.pmgpa.com.

About Virtual Imaging a Canon U.S.A. Company

Established in Delray Beach in 1995, Virtual Imaging, Inc. (VI) has since expanded to a new 40,000 square foot facility, in Deerfield Beach, Florida. VI specializes in the sale, service and maintenance of new and remanufactured diagnostic imaging equipment, asset management and comprehensive PACS solutions. With over 100 employees including 50+ service engineers covering the state of Florida, Virtual Imaging serves large complex organizations as well as imaging centers and private physician offices. VI remains the premier diagnostic imaging service organization in Florida and is one of the leading mini ISO's in the nation.

About eRAD
