

More than just a worklist and viewer...

Multi-site, multi-vendor
PACS integration

Consolidated worklist
for productivity
enhancements

Automated data
management
and routing

Web accessibility to
existing PACS installations
without migration or
replacement

Single-source, enterprise-wide
data analysis and reporting

Comprehensive clinical
review through automatic
prior-image and report
retrieval

Multi-discipline
diagnostic viewer

Co-existent report dictation,
speech recognition and
transcription solutions

Programmable interface for
custom integration

uniRAD

**Its closest
competitor**

...and that's why these top teleradiology
and reading groups run eRAD.
